The Board shall be composed of five members who reside in the unincorporated area of the township, within the territorial limits of the zoning jurisdiction, to be appointed by the Board of Township Trustees, and the terms of the members shall be of such length and so arranged that the term of one member will expire each year. Each member shall serve until his/her successor is appointed and qualified. - 8.02 POWERS OF THE BOARD OF ZONING APPEALS.
- 8.021 General. In exercising its power, the Board may in conformity with the provisions of statute and of this Resolution, reverse or affirm wholly or partly, or may modify the order, requirement, decision or determination appealed from, and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all powers of the officer from whom the appeal is taken.

The Board shall have the power to hear and decide appeals, filed as hereinbefore provided, where it is alleged by the appellant that there is error in any order, requirements, decision, grant, or refusal made by the Development Services Director or a designated subordinate in the interpretation of the provisions of this Resolution.
- 8.023 Variances. The Board shall have the power to authorize upon appeal in specific cases, filed as hereinbefore provided, such variances from the terms of the Zoning Resolution as will not be contrary to the public interest, but only in such cases, where, owing to special conditions pertaining to a specific piece of property, the literal enforcement of the provisions or requirements of this Resolution would an unnecessary hardship.

- 8.024 Conditional Uses. The Board shall have the power to authorize upon application, conditional use zoning certificates, for those uses which are specified as such by this Resolution, and for those uses which are determined by the Board to be of the same character as a principal or conditional use as specified by this Resolution.
- 8.025 Non-Conforming Uses. The Board shall have the power to grant the substitution of a non-conforming use, existing at the time of enactment of this Resolution, by another non-conforming use, provided, however, that the substituted use appears and is first permitted in the same Article of this Resolution as the current non-conforming use, and the Board determines the proposed substituted use is not of greater intensity or density than the existing non-conforming use.
- 8.0251 The Board shall have the power to grant the extension of a non-conforming use upon the lot occupied by such use, or on an adjoining lot; provided that such extension is necessary and incidental to such existing non-conforming use.

- 8.031 Three (3) members of the Board shall constitute a quorum. 8.032 The Board may call upon Township and County departments for assistance in the performance of its duties, and it shall be the duty of such departments to render such assistance as may reasonably be required.

8.04 APPLICATIONS, APPEALS, HEARINGS AND STAY OF PROCEEDINGS.

8.041 Applications - When and By Whom Taken. An application, in cases in which the Board has original jurisdiction under the provisions of this Resolution, may be filed by any property owner, including a tenant, or agent thereof. Such application shall be filed with the Development Services Director who shall transmit same to the Board.

8.042 Appeals - When and By Whom Taken. An appeal to the Board may be taken by any person aggrieved, or by any officer of the Township affected by any decision of an enforcement officer of the Springfield Township Development Services Department. Such appeal must be made within twenty (20) days after the decision by filing with the Springfield Township Development Services Department and with the Board, the proper application specifying the grounds thereof for the appeal. The Development Services Director shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from was taken.

8.043 Hearings. The Board shall fix a reasonable time for the hearing of the application or appeal, giving ten (10) days notice in writing to the parties in interest and giving notice of such public hearing by one publication in one or more newspapers in general circulation in the Township at least (10) days before the date of such hearing, and decide the same within a reasonable time after it is submitted. Each application for appeal shall be accompanied by a check or money order, payable to Springfield Township, in the amount to be determined by the Board of Trustees to cover the cost of publishing and/or posting and mailing the notice of the hearing or hearings and other expenses in conjunction therewith. At the hearing, any party may appear in person or by attorney. Any person adversely affected by the decision of the Board may appeal to the Court of Common Pleas of Hamilton County, on the ground that the decision was unreasonable or unlawful. A notice of appeal shall be made to the Development Services Director.

8.044 Decision of the Board. The Board shall decide all applications and appeals within thirty (30) days after the final hearing thereon.

8.045 A certified copy of the Board's decision shall be transmitted to the applicant or appellant, and to the Development Services Director. Such decision shall be binding upon the Development Services Director and on appointed inspectors, and observed by them, and they shall incorporate the terms and conditions of the same in the permit to the applicant or appellant, whenever a permit is authorized by the Board.

8.046 The decision of the Board shall not become final until the expiration of thirty (30) days from the date such decision is made, unless the Board shall find the immediate

taking effect of such decision is necessary for the preservation of such property or personal rights and shall so certify on the record.

8.047 Stay of Proceedings. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Development Services Director certifies to the Board, after notice of appeals shall have been filed with him/her, that by reasons of facts or conditions existing, a stay would, in his/her opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by an order which may, on due cause shown, be granted by the Board or judicial proceedings on application after notice to the Development Services Director.

8.05 STANDARDS FOR THE GRANTING OF APPLICATIONS AND APPEALS.

8.051 Standards for Administrative Review and Interpretations. Where it has been alleged by an appellant that there is error in any order, requirement, decision, grant, or refusal made by the Springfield Township Development Services Department, the Board shall request from the Development Services Director, a report stating the position of the department and the rationale for the decision made, or order served. Said report shall be made part of the record at the hearing regarding the appeal, and staff shall present all testimony in support of its decision. The appellant shall then present information and reasons why he/she feels the decision of staff is in error. Upon hearing from both the staff and the appellant and all others who wish to be heard, the Board shall reverse or affirm wholly, or partly, or modify the decision appealed from. In rendering its decision, the Board shall give due regard to the evidence presented and ensure that the spirit and purpose of this Resolution is observed and maintained.

8.0511 In hearing appeals regarding use interpretations, the Board shall not authorize any use which is not specifically permitted by this Resolution unless it finds that the following facts and conditions exist:

a) That the use requested in the appeal is similar in character, scale, intensity, and traffic trip generation to the other permitted uses in the same zone district.

b) That the authorizing of such use will not be detrimental to adjacent properties and will not materially impair the purpose of this Resolution or the public interest.

c) That the proposed site on which the use is to be located is adequate to facilitate the needs and requirements of said use.

8.052 Standards for Variances. The Board may grant variances where by reason of the exceptional narrowness, shallowness or unusual shape of a specific piece of property on the effective date of this Resolution, or by reason of exceptional topographic conditions, or other extraordinary situation or condition of such piece of property, or of the use or development of property immediately adjoining the piece of property in question, the literal enforcement of the requirements of this Resolution would cause

unnecessary hardship--unnecessary to carry out the spirit and purpose of this Resolution.

8.0521 In reviewing an application for a variance, the Board shall use the following standards in rendering a determination:

a) The subject property is exceptional as compared to other parcels subject to the same provision by reason of unique physical condition, irregular or substandard shape or size; exceptional topographical features; or the extraordinary physical conditions peculiar to and inherent in the subject property that amount to more than a mere inconvenience to the owner and that relate to or arise out of the parcel rather than the personal situation of the current owner of the parcel.

b) The carrying out of the strict literal enforcement of the provision from which the variance is sought would deprive the owner of substantial rights commonly enjoyed by owners of other parcels subject to the same provision.

c) That the authorizing of such variance will not be of substantial detriment to adjacent property, and will not materially impair the purposes of this Resolution or the public interest.

d) That the alleged hardship has not been self-created or is not merely the inability of the owner or occupant to enjoy some special privilege or additional right not available to owners or occupants of the other lots subject to the same provision, nor merely an inability to make more money from the subject property.

8.0522 No granting of a variance shall be authorized by the Board for requests that are of so general or recurrent a nature as to make reasonably practicable the formulation of a general regulation for such conditions or situation.

8.0523 In authorizing a variance, the Board may attach thereto such conditions regarding the location, character and other features of the proposed structure or use as it may deem necessary in the interest of the furtherance of the purposes of the Resolution and in the public interest. In authorizing a variance with attached conditions, the Board shall require such evidence and guarantee or bond as it may deem to be necessary, that the conditions attached are being complied with.

8.053 Standards for Conditional Uses and Special Exceptions. In hearing applications for conditional uses or special exceptions, the Board shall give due regard to the nature and condition of all adjacent uses. In authorizing a conditional use or special exception, the Board should impose requirements and conditions with respect to location, construction, maintenance, and operation that are deemed necessary to mitigate the special characteristics of the use in order to make it compatible with adjacent properties, and for the protection of adjacent properties and the public interest.

8.0531 In reviewing an application for a conditional use or special exception, the Board shall use the following standards in rendering a determination:

- a) The proposed conditional use or special exception is compatible in size, character, scale and intensity with adjacent existing uses, or is in keeping with the general vicinity in which it is located.
- b) Special conditions or requirements imposed, can mitigate the special characteristics which are inherent to the use and enable compatibility with the existing neighborhood, and maintain the spirit of this Resolution.
- c) The authorizing of such conditional use or special exception will not be of substantial detriment to the adjacent property or surrounding neighborhood.

10.181 Each off-street parking space for standard cars shall have an area not less than one-hundred and sixty-two (162) square feet and be at least nine (9) feet wide and eighteen (18) feet long.

Each off-street parking space for compact cars shall have an area not less than one-hundred and twelve (112) square feet and be at least eight (8) feet wide and fourteen (14) feet long. Such parking for compact cars shall not be included in calculations for required parking.

Each off-street parallel parking space shall have an area not less than two-hundred and seven (207) square feet and be at least nine (9) feet wide and twenty-three (23) feet long.

10.182 A parking plan, drawn to scale, showing the traffic control plan and exact size and location of each space is required in conjunction with each application for a Zoning Certificate. The parking area plan shall provide maneuvering space for parking in the form of access aisles of the following minimum widths:

- 24 feet for 90 degree parking
- 18 feet for 60 degree parking
- 14 feet for 45 degree parking
- 12 feet for 30 degree parking
- 12 feet for 0 degree parking

10.183 Except in the case of dwellings, no parking lot area shall be less than four hundred (400) square feet in area.

10.184 For purposes of calculating the required number of parking spaces pursuant to the parking requirements in this Resolution, floor area shall mean the gross floor area used or intended to be used by tenants, or client or patients, including areas occupied by fixtures and equipment used for display or sales merchandise. It shall not include areas used principally for non-public purposes, such as storage or incidental repair, or restroom facilities.

- 10.185 All parking areas shall be located on the same lot as the principal building or use unless approved by the Board of Zoning Appeals pursuant to the standards and procedures for conditional uses as set forth in Article 8, Subsection 8.053, or as approved pursuant to the provisions of an RCO or PUD District.
- 10.186 All off-street parking areas shall be surfaced with an asphaltic, Portland cement binder, or other like pavement so as to provide a durable and dustless surface, shall be graded and drained as to dispose of all surface water accumulated within the area, in accordance with the standards of the Hamilton County Engineer's office, and shall be arranged and marked as to provide for safe loading and unloading and parking and storage of self-propelled vehicles. Approved storage yards shall use surface materials so as to provide a dustless surface.
- 10.187 Landscaping of parking areas shall be maintained in living and well-trimmed condition. Screening, if other than landscaping shall be maintained in good repair through the use of proper building materials.
- 10.188 Nonresidential parking areas for more than five (5) vehicles, which adjoin or face lots situated in any residential district, or institutional premises (churches, schools, public buildings of an administrative or cultural type), shall be screened on each side by a masonry wall, solid fence or earth berm. Such screening shall be not less than four (4) feet or more than six (6) feet in height and shall be maintained in good repair, pursuant to the provisions of Subsection 10.187 and without any form of advertising thereon.
- 10.189 A buffer area of not less than six (6) feet in width shall be maintained between all parking areas (exclusive of access points of ingress and egress) and any street right-of-way. Such area shall be landscaped with grass, shrubs, trees, or ground cover and maintained in a living and well-trimmed condition.
- 10.1891 A perimeter buffer area of not less than four (4) feet in width shall be maintained between all parking areas (exclusive of access points of ingress or egress or areas for cross easement) and the side and rear property lines. Such area shall be landscaped with grass, shrubs, trees, or ground cover and maintained in a living and well-trimmed condition.
- 10.1892 All off-street parking areas shall be designed in a way so as to prevent vehicles from having to back out of the lot onto a public street and so as to prevent the moving of one vehicle to access that of another.
- 10.19 NUISANCES PROHIBITED. No inoperable vehicle, unlicensed trailer or discarded furniture, appliances or other miscellaneous junk materials, shall be permitted to remain exposed on the premises for a period of more than ten (10) days. Specific demolition and rehabilitation projects requiring the placement of a dumpster for periods exceeding thirty (30) days shall be permitted provided a Zoning Certificate

has been issued pursuant to Article 5, Subsection 5.02. Trailers used in conjunction with an approved storage yard in an Industrial District shall not be included in this provision.

10.20 EXEMPTED TOWERS AND PUBLIC UTILITIES. Non-cellular wireless and telecommunication towers and facilities licensed by the Federal Communications Commission, and Public Utilities licenses by the Public Utilities Commission of Ohio (PUCO) are exempted from the requirements of this Resolution. Cellular and wireless telecommunications towers located in areas other than areas zoned for residential use are exempt for the requirements of this Resolution except as provided by Ohio Revised Code 519.211.

10.21 ZONING AUTHORITY FOR WIRELESS AND CELLULAR TELECOMMUNICATION TOWERS. Except in accordance with Ohio Revised Code 519.211 and the provisions of this Resolution, no person shall, in an area zoned for residential uses, locate, erect, construct, reconstruct, change, alter, use or enlarge any wireless and cellular telecommunication tower. Whenever a notice has been received or an objection has been lodged, in the manner prescribed in Ohio Revised Code 519.211, regarding a wireless and cellular telecommunication tower in an area zoned for residential uses, the Board of Zoning Appeals, shall, upon application, have the power to issue at its discretion conditional use zoning certificates after public hearing allowing the construction, location, erection, reconstruction, change, alteration or enlargement of such wireless and cellular telecommunication tower if it finds that the applicant has satisfied all of the applicable requirements of this Article.

10.212 Exceptions. The following are exceptions to the regulations contained in this Article pertaining to wireless and cellular communication towers:

- a. A Zoning Certificate shall be granted as-of-right, without the need for public hearing, to permit the construction of a new wireless and cellular telecommunication tower proposed to be located in an area zoned for residential use if that new tower or antenna is added to an existing tower and if such installation extends less than 25 feet above the original height of the structure on which it is mounted.
- b. Wireless and cellular telecommunication towers not located in an area zoned for residential uses are exempt from zoning.
- c. Wireless and cellular telecommunication towers located in an area zoned for residential uses are exempt from the provisions of this Article unless, within 15 days after the date of mailing of the applicant's notice sent pursuant to Ohio Revised Code 519.211(F)(1), either of the following apply:
 - i. The Township Trustees or a contiguous property owner gives written notice to the Township Trustees requesting that the wireless and cellular telecommunications tower be subjected to this Resolution; or

- ii. A member of the Township Trustees makes an objection to the proposed location of the wireless and cellular telecommunications tower.

10.213 Procedures. The following procedures required for the issuance of a Conditional Use Certificate shall be in addition to any procedures required by Article 8 pertaining to conditional uses and the Ohio Revised Code Sections pertaining to wireless and cellular telecommunication towers.

- a. Pre-Application Conference. Any person or company intending to construct or to apply for the placement or operation of a wireless and cellular telecommunication tower within an area zoned for residential uses shall first schedule a pre-application conference with the Development Services Director. The purpose of the pre-application conference is to discuss the needs of the applicant, evaluate the impact to the proposed tower on adjacent property and neighborhoods, discuss possibilities of co-location, identify alternate sites that may minimize the negative impact on residential areas, and clarify the application process and requirements.
- b. Required Application Documents. Any request filed under this section for review of a proposal to construct a wireless and cellular telecommunications tower shall include the following:
 - i. Analysis of Co-location Alternative: Unless the application is for co-location, the application shall submit certification, supported by evidence, indicating that co-location of the proposed wireless and cellular telecommunications tower with an existing, approved tower cannot be accommodated. The applicant's certification shall include a listing of all existing wireless and cellular telecommunications towers in the Township, a description of each existing site, and a discussion of the ability or inability to co-locate on each existing site according to the following scope of analysis:
 - For a tower proposed to exceed a height of 100 feet but less than 200 feet, analysis must include all towers within a 1 ½ mile radius;
 - For a tower proposed to exceed a height of 100 feet but less than 200 feet, analysis must include all tower within a 1 mile radius;
 - For a tower proposed to be built at a height less than 100 feet, analysis must include all towers within a ½ mile radius.

Reasons for not co-locating on a site would include the following:

- No existing wireless and cellular telecommunications towers are located within the above-listed radius of the site;
- Existing wireless and cellular telecommunications towers are not of sufficient height to meet the applicant's engineering requirements;

- Existing wireless and cellular telecommunications towers do not have sufficient structural strength to support applicant’s proposed antenna and related equipment;
 - Applicant’s planned equipment would cause radio frequency interference with other existing or planned equipment of the wireless and cellular telecommunications tower, or the existing or planned equipment of the wireless and cellular telecommunications tower would cause interference with applicant’s planned equipment which cannot be reasonably prevented;
 - Unwillingness of the owner of the existing wireless and cellular telecommunications tower to enter into a co-location arrangement;
 - Existing wireless and cellular telecommunications towers do not provide an acceptable location or requisite coverage for the applicant’s communication network.
- ii. Analysis of New Tower Site Alternatives: Unless the application is for co-location, the application shall submit certification, supported by evidence, indicating that the proposed new site for a wireless and cellular telecommunications tower is an essential location. The applicant’s certification shall include a listing of potential sites, a description of each potential site (including ground elevations) and a discussion of the ability r inability of the site to host a telecommunications tower according to the following site of analysis:
- For a tower proposed to exceed a height of 100 feet but less than 200 feet, analysis must include all towers within a 1 ½ mile radius;
 - For a tower proposed to exceed a height of 100 feet but less than 200 feet, analysis must include all tower within a 1 mile radius;
 - For a tower proposed to be built at a height less than 100 feet, analysis must include all towers within a ½ mile radius.

Potential sites that should be considered (in order from most preferred to least preferred) include: existing telecommunication towers and utility towers, public land in non-residential districts, industrial districts, commercial districts, and residential districts.

Reasons for not locating on a potential site include the following:

- * Unwillingness of the site owner to site a wireless and cellular telecommunications tower on commercially reasonable terms;
- * Topographical limitations of the site;
- * Adjacent impediments that would preclude the construction of a cellular and wireless telecommunications tower;
- * Existing potential sites do not provide an acceptable location for requisite coverage for the applicant’s communications system.

- iii. **Analysis of Visual Impact.** The applicant for a Conditional Use Certificate to construct a wireless and cellular telecommunications tower shall submit, subject to a non-site owner's permission to enter upon the land, a pictorial representation, such as a silhouette drawing, photograph, etc. of the proposed wireless and cellular telecommunications tower from a point 400 feet from the facility in each of the four compass directions showing the relationship of the tower against the massing of surrounding structures, trees, and other intervening visual masses.
- iv. **Consistency with Adopted Plans.** The applicant shall submit a justification statement demonstrating that the proposed construction is in agreement with any plans, relating to telecommunications towers, duly adopted by the Township Trustees.
- v. **Other Approvals.** The applicant shall submit evidence in a form satisfactory to the Board that the proposal has been approved by all agencies and governmental entities with jurisdiction, as well as evidence that the proposal conforms to all applicable requirements of the Ohio Department of Transportation, the Federal Aviation Administration, the Federal Communications Commission, or the successors to their respective functions.
- c. **Expert Review.** Prior to granting a Conditional Use Certificate, the Board may require that the applicant's proposal and analysis be reviewed by an independent qualified consultant(s), at the cost of the applicant. Special review fees, not to exceed \$2,500.00 may be established to cover the costs of staff and/or external expert review of requests filed under this section.
- d. **Agreement to Enable Co-location.** In the event the construction of a new wireless and cellular telecommunications tower by the applicant, the applicant shall agree to the shared use of such tower, when technically feasible, by other telecommunication companies upon payment of reasonable fees to the applicant, or agreement to reciprocal terms for co-location involving other sites, provided such shared use does not violate any law, rule or regulation. Any new wireless and cellular telecommunications towers shall be designed to accommodate antennas for more than one use. Such agreement shall be incorporated in the application for the Conditional Use Certificate and shall be a condition upon which such certificate is granted.
- e. **Agreement to Accommodate Public Safety Antennas.** The applicant shall agree to accommodate the communications antennas of local police, fire, ambulance, and other governmental departments at no charge where technically feasible. Such agreement shall be incorporated in the application for the Conditional Use Certificate and shall be a condition upon which such certificate is granted.

- f. Agreement to Submit an Annual Network Inventory. On or before January 1st of each calendar year, each applicant (having been granted a Conditional Use Certificate) shall provide a listing of the present locations of the applicant’s wireless and cellular telecommunications towers in the Township. The applicant shall provide any changes to the “annual” plan that have occurred since January 1st or verify the continued accuracy of the plan submitted. Such agreement shall be incorporated in the application for Conditional Use Certificate and shall be a condition upon which such certificate is granted.

- g. Guarantee of Removal if Abandoned. To ensure the removal of all improvements at any abandoned wireless and cellular telecommunications tower, in an area zoned for residential use, any applicant filing a request, except for multi-user co-location towers, under this section shall, deposit with the Board and to the benefit of the Township Trustees, a letter of credit, a performance bond, or other security acceptable to the Township Trustees. Performance bonds are to be issued by a bonding agency certified and licensed by the State of Ohio. The bonding agency shall recommend the amount of the bond required covering the costs associated with the removal of the improvements and the restoration of the land to its original condition prior to the construction of the wireless and cellular telecommunications tower. Verification of the performance bond, line of credit, or other security issued to guarantee the removal and restoration of the land, are to be submitted to the Board on or before January 1st of each calendar year while the tower is in use. Any guarantee submitted shall be irrevocable and shall provide for the Township Trustees to collect the full amount of the guarantee if the applicant fails to maintain the guarantee. A change in ownership, lessee, successor by merger requires the issuance of a new guarantee. A new guarantee shall be submitted to the Board for approval and submission to the Township Trustees. The owner or lessee shall enter into a written agreement with the property owner to remove all improvements made in association with the construction of the tower and to restore the property to its original state when the tower is no longer in use and/or at the time of the termination of the lease agreement. An agreement to each of the provisions of this section shall be incorporated in the application for Conditional Use Certificate and shall be a condition upon which such certificate is granted.

10.22 ZONING CERTIFICATE PROCEDURES FOR WIRELESS AND CELLULAR TELECOMMUNICATION TOWERS. Any wireless and cellular telecommunication tower granted a Conditional User Certificate by the Board of Zoning Appeals, pursuant to Article 10, Subsection 10.21 shall require the issuance of a Zoning Certificate.

Any wireless and cellular telecommunication tower proposed to be located in an R-District and which has been determined to be subject to township zoning shall require the issuance of a Zoning Certificate. Upon application of the public utility for such a Zoning Certificate, the Development Services Director shall forward said application to the Board of Trustees. The Board of Trustees shall, upon receipt of such

application, set a time for a public hearing on the proposed application within thirty (30) days from the date of receipt of the application. Notice of such public hearing shall be given by certified mail to the applicant and all property owners whose land is contiguous to or directly across the street from the property where the tower is proposed to be located. The notice shall set forth a time and place of the public hearing and a summary of the proposed tower.

10.221 The Township Board of Trustees shall have the power to hear and decide whether the proposed tower is in keeping with the intent of this Resolution to maintain the public health, safety and general welfare of the residents of Springfield Township. In considering an application for a wireless and cellular telecommunication tower, the Board of Trustees shall give due regard to the nature and condition of all adjacent uses and structures and to ensure that the height and location of the tower has been approved by all other governmental agencies charged with the responsibility of maintaining air safety. The Board of Trustees shall also ensure that no other structure is located within a distance from the base of the tower that is less than the height of the tower itself. The Board of Trustees may impose other conditions and requirements as deemed necessary for the protection of adjacent properties and the public interest.

10.222 SPECIFIC CRITERIA PERTAINING TO WIRELESS AND CELLULAR TELECOMMUNICATION TOWERS. The following criteria apply to wireless and cellular telecommunication towers:

- a. Design. A new wireless and cellular telecommunications tower built in an area zoned for residential use shall, to the extent economically and technologically feasible, be designed, engineered and constructed as follows:
 - i. a tower 75 feet tall or less shall be designed, engineered, and constructed to support antennas installed by one or more wireless communication service providers;
 - ii. a tower more than 75 feet tall but less than 150 feet tall shall be designed, engineered, and constructed to support antennas installed by two or more wireless communication service providers;
 - iii. a tower 150 feet tall or more shall be designed, engineered, and constructed to support antennas installed by three or more wireless communication service providers. Monopole tower installations are required unless it is demonstrated that another type of tower is required for safety purposes or for co-location or multiple use requirements of the Board.
- b. Lot Size. Lot size shall be the minimum for the zoning district in which the wireless and cellular telecommunications tower is to be built. Sufficient ground

space shall be provided to enable multiple equipment structures in accordance with co-location requirements and plans.

- c. Setbacks for Towers. Wireless and cellular telecommunications towers shall be located so as to establish a clear zone for falling tower debris, ice and/or the collapse of the tower. Towers shall be such that the distance from the base of the tower to any adjoining property line of a residential use or district is a minimum of 100 percent of the proposed tower height and a minimum of 50 percent of the proposed tower height from any adjoining non-residential use or district.
- d. Visual Impact. Wireless and cellular telecommunications towers shall be constructed using designs and materials that reduce visual impact to the extent economically and technologically feasible.
- e. Abandonment. The applicant (or its successors in interest) shall, within 30 days of permanently ceasing operation of a wireless and cellular communications tower, provide written notice of abandonment to the Development Services Director. An unused tower may stand no longer than 12 months following abandonment. All costs associated with demolition of the tower and associated equipment and buildings shall be borne by the most recent tower operator of record unless such costs are the contractual or legal responsibility of another party. A tower is considered abandoned when it ceases transmission for 30 consecutive days. If the use of any wireless and cellular telecommunications tower is discontinued, the owner shall provide the Development Services Director with a copy of the notice to the FCC of intent to cease operations within 30 days of such notice to the FCC. If the tower will not be reused, the owner shall have 180 days from submittal of the FCC notice to the Board to obtain a demolition permit and remove the tower that will not be reused. If the tower is to be reused, the owner shall have no more than 12 months from the submittal of the FCC notice to the Director, in which to commence new operation of the tower. Upon failure to commence new operation of the tower within 12 months, the tower shall be presumed to be abandoned, and the owner shall immediately obtain a demolition permit and remove the tower that is presumed to be abandoned. If the owner fails to remove a tower in the time provided in this section, the Development Services Director may cause the demolition and removal of the tower and recover its costs of demolition and removal from the Guarantee deposited by the applicant.

10.23 HEIGHT LIMIT EXCEPTIONS. Height limitations stipulated elsewhere in this Resolution shall not apply to the following:

10.231 Barns, silos or other farm buildings or structures on farms; water towers; transmission towers; and parapet walls extending not more than four (4) feet above the limiting height of the building.

PUD-PLANNED UNIT DEVELOPMENT DISTRICTS

- 26.01 PURPOSE. This article authorizes the creation of certain types of planned unit development districts which provide a flexible zoning procedure for residential, commercial, industrial, and special purpose land uses. These districts permit new techniques in community development and flexible design and development regulations which assure an efficient utilization and allocation of land. Maximum overall gross densities and intensities can be achieved on tracts within these districts when approved by the Board of Trustees and/or Zoning Commission which assure a minimum adverse effect on natural features and the environment, and which assure greater efficiency in providing public and utility services or which due to key design, land use, or public amenities offer an increased overall benefit to the community and promotes the public health, safety, and general welfare.
- 26.02 TYPES OF PLANNED UNIT DEVELOPMENT DISTRICTS. The following are the planned unit development districts which are available to property owners at their election:
- "R-PUD" Residential Planned Unit Development
 - "C-PUD" Commercial Planned Unit Development
 - "M-PUD" Industrial Planned Unit Development
 - "SP-PUD" Special Purpose Planned Unit Development
- 26.03 PRINCIPAL PERMITTED USES. All uses in a Planned Unit Development District are subject to the approval of a preliminary and final development plan by the Zoning Commission and Board of Township Trustees pursuant to Subsection 26.09 through 26.16, inclusive. The following explains the uses permitted by each of the Planned Unit Development Districts. Uses not specifically listed as permitted by these districts may be permitted if determined by the Zoning Commission and/or Board of Trustees to be of the same general character as the above permitted uses.
- 26.031 The following uses are principal permitted uses in the R-PUD District:
- 26.0311 Any use permitted either as a principal or conditional use in the R-1, R-1A, R-2, or R-3 Districts.
- 26.0312 Multiple-family dwellings, row dwellings and townhouses.
The density of these uses in a Residential Planned Unit Development shall be determined pursuant to the General Design Standards listed in Article 26.04 and not necessarily restricted to the development standards of the R-4 (Multiple-Family) District.
- 26.032 The following uses are principal permitted uses in the C-PUD District:
